A One-Page Paper With a Code On It

Lemmaria Test Fixture

1 Introduction

This one-page document exists so that a model can be asked to read something that is only visible on the RENDERED page. The code below is set in a framed box at a large size so that it is unmistakable at the width the harness renders at.

LEMMARIA-MARKER-7F3A

2 Method

There is no method. The paper is a fixture, and its only job is to carry the code above onto a page a renderer can turn into pixels.
